

Enjoy the Warmth!

BENEFITS OF RADIANT CEILING HEATING

Calorique's *Perfectly Warm™ Ceiling Heat* warms your room, furnishings and occupants – comfortably and naturally. It has been designed to provide the ultimate in thermal comfort for you and your family. One room or an entire house can benefit from Calorique's *Perfectly Warm™ Ceiling Heat*.

Radiant Heat is the same type of natural heat that warms you just like the sun on a cool spring day. Although the air is cool, the radiant heat from the sun keeps you warm.

Easy to Install and Low Operating Cost

This primary or supplementary heating system is easily installed by stapling to the underside of the ceiling joists. Calorique's *Perfectly Warm™ Ceiling Heat* is an ultra high energy efficient system. The room temperature is controlled by a programmable thermostat.

Primary heat specification requires a heat loss calculation to determine the number of watts required to heat your space. A heat loss calculator is conveniently available at: www.calorique.com

Calorique

Perfectly Warm™

Radiant Ceiling Heat

FEATURES

- 240V
- Available for 12", 16" and 24" on center joist spacing
- Available in rolls or panels
- Thin profile film
- Easy to install
- Maintenance-free
- Safe and silent
- Low Energy Consumption
- Uniform heat distribution
- Comfort-controlled by thermostat
- Does not circulate airborne allergens
- 25 Year Limited Warranty

SPECIFICATIONS

- Thickness: 0.009"
- Weight: 1.19 oz./ sq.ft. / 0.0337kg
- Watts Per Square Foot. : 17

SUITABLE FOR

- New construction
- Renovation or retro-fit
- Primary or supplemental heat
