Voltage	Sizes (sq ft.)	*Available Thermostat	Flooring Compatibility
120	10, 15, 20, 30, 40, 50, 60, 70, 80, 90, 100	Honeywell (Programmable with GFCI)	Porcelain, Ceramic Tile, Granite, Non-cultured Marble, Natural Stone, Engineered Wood Flooring
240	20, 30, 40, 50, 60, 70, 80, 90, 100, 110		

Floor Heating Mat Accessories:

HW120240 – Honeywell 120-240V Floor Heating Thermostat with GFCI

- Programmable time and temperature controls provide maximum comfort and energy efficiency
- Built in GFCI insures safety and building code compliance
- Early Start function ensures programmed temperature setting is reached by programmed time
- Temporary temperature bypass feature allows user to override programmed settings momentarily
- Thermostat shutdown ON/OFF switch allows heat mats to be turned off at the end of the cold season
- Compatible with both 120V and 240V heating mats
- Compact and modern design blends in with any décor
- Large backlit LED screen
- 3 Year Honeywell manufacturer's warranty

WJBZMONITOR – Buzzing Monitor for Floor Heating Mat

- Monitors floor heating cable continuity during installation. Alarm buzzes if a cut or damage is detected in the heating cable, allowing early and easy repair before the floorings are permanently laid.

WJRPKITS – Repair Kit for Floor Heating Mat

- For repairing cable that had been damaged during installation of the heating mat.
- Includes jumper wires, wire connectors, ground wire and shrink tubing
