

## BUILT WITH YOUR NEEDS IN MIND

No one understands heating systems in Canada better than you. And no one knows comfort controls better than Aube. That's why we now offer a complete line of non-programmable line volt thermostats to help you meet virtually all applications. Best of all, every thermostat includes the most popular Aube features:

- **TRIAC switching for silent operation and precise temperature control**
- **Compatibility with baseboards, convectors and fan-forced heaters**
- **3-year warranty**

DESIGNED IN CANADA

## NON-PROGRAMMABLE LINE VOLT THERMOSTATS

## AUBE TRIAC ADVANTAGES

Unlike mechanical thermostats that operate on long cycles, Aube TRIAC thermostats can operate on 15-second cycles because they are entirely electronic. As a result, Aube TRIAC thermostats provide homeowners improved comfort through:

- **Virtually no temperature swings**
- **100% silent operation — no clicking noise when heat command is activated**
- **Reduced baseboard “crackling” sounds**

Best of all, as non-programmable thermostats, Aube TRIAC thermostats cut heating bills by up to 10 percent\* with unsurpassed precision, eliminating temperature swings and allowing homeowners to enjoy comfort at lower temperature set points.

# A COMPLETE PORTFOLIO

## A NEW ADDITION + OLD FAVOURITES

Take the classic TH401 and TH108PLUS, add the TH450, and the result is a line of non-programmable thermostats that cover a wide power load, backed by the legendary reliability and installation ease of all Aube products.

### TH450

Supporting a wide power range of 300-4000W, the new TH450 includes a backlit display for easy viewing and features an attractive, streamlined design. It's the ideal choice for meeting nearly every application with style. Add in Aube's TRIAC switching and you'll see that the TH450 is the total package.

### THE CLASSICS

Don't worry — your Aube favourites remain on duty. The popular TH108PLUS features amazing accuracy and silent TRIAC operation. And the compact TH401 is ideal for small-space applications thanks to its compact stylish design.

Different looks,  
different sizes,  
all your needs  
are covered  
with **AUBE.**
